WINDER – LEFT

If this diagram matches the site, please mark up the dimensions, tick the appropriate box for the type of wall. Then forward a copy of this diagram to Medequip

The diagram illustrates a winder staircase with a handrail. Dimensions are labeled as follows:

- A**: Total length of the handrail.
- B**: Length of the handrail from the start of the winder to the end of the last step.
- C**: Length of the handrail from the start of the winder to the end of the first step.
- D**: Length of the handrail from the start of the winder to the end of the last step.
- E**: Height of the handrail from the top of the steps to the top of the handrail.
- F**: Height of the handrail from the bottom of the steps to the top of the handrail.

A detail view of the handrail shows a "Suggested overhang 300mm" and labels **(E)** for the height from the top of the steps and **(E)** for the height from the bottom of the steps.
